

Oman Medical Specialty Board Initial Application for Establishment of a New Training Program

Demographic Information

Proposed Program Name:	
Proposed Program Director:	
Type of Training Program:	<input type="checkbox"/> Residency <input type="checkbox"/> Fellowship <input type="checkbox"/> Other, please specify _____
Classification:	<input type="checkbox"/> Medical <input type="checkbox"/> Surgical <input type="checkbox"/> Laboratory <input type="checkbox"/> Dental <input type="checkbox"/> Other, please specify _____
Program Duration (in years):	
Proposed Primary Hospital (choose only one):	<input type="checkbox"/> Sultan Qaboos University Hospital <input type="checkbox"/> Royal Hospital <input type="checkbox"/> Armed Forces Hospital <input type="checkbox"/> Khoula Hospital <input type="checkbox"/> Al Nahdah Hospital <input type="checkbox"/> Al Massara Hospital <input type="checkbox"/> Other, please specify _____
Proposed Participating Sites (choose all that apply):	<input type="checkbox"/> Sultan Qaboos University Hospital <input type="checkbox"/> Royal Hospital <input type="checkbox"/> Armed Forces Hospital <input type="checkbox"/> Khoula Hospital <input type="checkbox"/> Al Nahdah Hospital <input type="checkbox"/> Al Massara Hospital <input type="checkbox"/> Other, please specify _____
Proposed Intake per year:	

Recruitment/Eligibility

Applicant Eligibility	<input type="checkbox"/> MD or MBBCh <input type="checkbox"/> DDS or DMD <input type="checkbox"/> Completion of a residency program, please specify _____ <input type="checkbox"/> Other, please specify _____
-----------------------	---

Resources for Training

Number of Faculty:	
Clinical Volume	
<ul style="list-style-type: none"> Total Hospital Visits 	
<ul style="list-style-type: none"> Department Visit: 	
<ul style="list-style-type: none"> Volume of cases related to the proposed program (please specify below: _____ 	
Describe the space and facilities such as office/clinic space, computers, on-call room, resident lounge, shower, etc.	

Needs Assessment

What are the healthcare problems that the program will address and the disease prevalence?	
Please provide information regarding the workforce:	
Current total number of physicians in this field	
Current number of qualified physicians in the field and their distribution in the Sultanate (indicate governorate and number of physicians)	
Projected number of specialists in this field in 15 years:	
Please outline the rationale for starting a training program in this area (e.g. will it address a societal need, meet local service demands, enhance the workforce requirements, improving quality of service, etc.?). <i>(please limit your answer to 400 words)</i>	

Educational Program Information

Describe the educational impact for starting this training program (e.g. how would the new program enhance the learning environment, improve the experience on certain rotations, complement existing programs, and further enhance the mission of the institution and OMSB)? <i>(please limit your answer to 400 words)</i>
Describe the anticipated career path/s for program graduates (e.g. posting at the health centers and specialized health centers or primary/tertiary hospitals, regional or primary hospitals with a potential to provide services in the regions) <i>(please limit your answer to 400 words)</i>

<p>Indicate the proportion of time that the trainee would devote to clinical activities, research and any other major responsibilities (e.g. overseeing/supervising the clinical teams, committees, education/guidance of junior trainees and other staff). <i>(please limit your answer to 400 words)</i></p>
<p>Describe the expected interactions between the trainees and other learners; any potential impact on the core residency program and other training (e.g. reduced clinical material available to trainees, increased medical student teaching or resident supervision, expanded didactic conferences open to trainees in other programs, etc.) <i>(please limit your answer to 400 words)</i></p>
<p>Provide a brief description of the educational strategies that will be utilized in this training program. <i>(please limit your answer to 400 words)</i></p>

Strategic Impact

<p>How does the addition of this program affect residents, faculty, GME at OMSB and hospitals?</p>
--

Program Description

<p>Provide a brief description on the following</p>
<p>Overview of the program and mission statement <i>(please limit your answer to 100 words)</i></p>
<p>Description of training locations (what institutions would be involved? Provide a brief description of the educational impact, faculty coverage, volume and variety of clinical experience, and faculty coverage for each training site). <i>(please limit your answer to 1000 words for each site)</i></p>
<p>Educational outcomes of the program <i>(please limit your answer to 100 words)</i></p>
<p>Requirements of trainees in the program (e.g. participation in education program, clinical care of patients, presentation at a national meeting, publication of a scholarly activity) <i>(please limit your answer to 400 words)</i></p>
<p>Description of evaluations of trainees and the program <i>(please limit your answer to 400 words)</i></p>
<p>List of faculty roster and qualifications</p>
