6. Read the Information Review.

Information Review

Registration Requirements

"When you schedule your appointment, you should be prepared to provide any of the following information: The name used to schedule your appointment must exactly match the name shown on your identification. At a minimum, the identification must be a valid, Passport/ID card that shows your name in the English alphabet, your signature and your photograph Your Prometric Testing I.D. (SP#) Number if applicable. Contact phone numbers - If there is a problem, we will use these numbers to reach you Mailing address - Please provide full postal address where you can be contacted Exam number and/or title E-mail address - Once again for contact purposes, this is often the fastest and most effective means of contact."

What to Bring to the Testing Center

When you go to the testing center, you should take with you the same form of identification that you used to register with, your Passport. At check in, this will be verified and if the ID does not match, you may be refused testing. OMSB will not accept candidates who have not completed this information and failure to do so may result in your result being withheld.

What Time to Arrive at the Testing Center

Arrive at the testing center 30 minutes before the scheduled appointment to allow time for check-in procedures. If you are late in arriving, you will not be allowed to test and will incur a penalty fee for lost computer time in order to re-establish your eligibility.

11. Read the Prometric Biometric Consent.

Prometric Biometric Consent

Biometric Collection Disclosure

BIOMETRICS

Where selected by your test sponsor and allowed by law, Prometric's Biometric Enabled Check-In System is designed to improve the security and integrity of the testing process in a way that protects test candidate privacy while ensuring test candidate identity. The Biometric Enabled Check-In System converts a fingerprint image to a digital image for the purposes of identity verification, detection and prevention of fraud and misrepresentation, maintaining the integrity of the testing process, and improving the security of test centers. For security purposes, all biometric data is securely transferred to and stored within Prometric's Central Data Center located in Ireland. Prometric manages the security and confidentiality of the data to protect it from unauthorized access, use, disclosure, or alteration, and to retain and destroy the data in accordance with applicable law.

A. Privacy Statement for Biometrics

1. How the Biometric Enabled Check-In System Works

By placing the index finger on a scanner in a Prometric Test Center, the Biometric Enabled Check-In System equipment captures an image of the fingerprint and creates a digitized representation of the fingerprint (a "template"). The fingerprint image and template are paired with other Personal Data provided to Prometric by the candidate (such as name and other identifying information), allowing Prometric to identify the candidate accurately during the testing process and over repeated testing sessions.
